Mrs Sheila O'Neill
Secretary - C.F.P. Review
P.O. Box 31, Clonakilty

Dear Mrs O'Neill,

I wish to submit my views about the C.F.P. as follows.

I am an eighty one year old semi-retired fisherman, I started fishing at the age of fourteen years and I am still fishing.

The C.F. Policy is the greatest disaster that was ever imposed on fishermen. i.e. The quota system as of now is the greatest disaster of all time. A rigid quota system cannot work and is responsible for loss of fishermen, loss of boats, and last but not least massive pollution of the sea bed.

If the people responsible for introducing such a system of management of the fishing industry are so ill-informed and are so dogmatic about rules and regulations, there is no point in anyone trying to change this system.

No one the whole quota system must be flexible and until that happens there is no point in writing any more, I state my case,

Yours sincerely,

Pat Murphy

Please acknowledge.
